Some Dictation Excerpts on Survival

The first problem people may have with the idea of preparedness is that it may feel like they are not trusting God to take care of them. This is a valid concern.

If we are to trust God and His angels to take care of us without us doing anything physically to help, then why do we wear seatbelts in our cars? This is what El Morya had to say on this subject:

El Morya, December 31, 1981: “Sometimes our students have asked the messenger, in the case of a fatal automobile accident or a serious injury, “What was the karma of the individual?” And I have replied that sometimes the only karma is the failure to fasten your seat belt. Somehow chelas on the Path forget the need to divide the Word rightly, to pay attention to the sanctity of the living temple! ... I adjure you personally to also increase the security of your home, your person, your finances, your life, and your children—not only physically but astrally, mentally, and on every plane.” (1982 POW Vol. 25 No. 7)

[Slide 4]

Gautama Buddha, May 20, 1989: “Do not fear to face the future or what is coming upon the earth, but take heed to be in preparedness, as we have told you. For when you are in the physical body you are subject to physical conditions. Therefore, if you go out in subzero weather, you may take cold or pneumonia unless you are one of the few yogis in the high Himalayas who may sit [naked] in the ice and snow untouched.” (POW Vol. 32 No. 29)

Our survival needs a balance between spirituality and practicality.

Have the Ascended Masters asked us to be prepared?

They have. Many times. Some of the references have already been covered recently by our President Valerie McBride in her letter to the field last month (June 16th).

I am not going to cover everything the Ascended Masters have said. If you are interested, just go to the Pearls of Wisdom online and search for terms like survival, prepared, earth changes, cataclysm etc. and you will have lots of material to read. You should also have a handout. Today I will just cover a few quotes. First of all, when the Masters ask us to do something, they understand that we cannot all do everything they have ever asked us. So they leave it up to us to decide if it is for us or not. They very seldom ask all Keepers to do something. But Saint Germain asked all KOF to prepare.

[Slide 5 & 6]

Saint Germain on October 8, 1989: “...If you are prepared, you will indeed survive and survive mightily. Therefore let the contingency plans be made by every Keeper of the Flame who is worth his salt and his water and his food reserves; for this comes down to a question of self-worth! Are you worth this life insurance policy?

.... Let there be, then, the consideration and let it be said that, I, Saint Germain, shall never predict with absolute certainty that this war and holocaust shall occur. I deal only in the probabilities and I deal

only with the uncertainties as to the protection of our Lightbearers in such a situation. If you can see the realism of the world geopolitical configuration in this hour, then you, too, must surely see that the chances that this will occur are as great as, or greater than, [they are that] you will have a fire in your house or you will have robbers or you will have an accident or you may have a death in the family.

[Slide 6]

And all of these [probabilities] are the reasons why you have taken out insurance policies.

Therefore let it be said and let it be said with the full fierceness and finality of my being: Any and all who have heard me and who are initiates of the Great White Brotherhood who do not make a simple seven-month preparation shall bear the karma of the neglect of the warning directly from the heart of the Master of the Aquarian age!" (POW Vol. 32 No. 55 - November 11, 1989)

I think that is pretty straight forward.

The question then may arise: What if I wasn't there when this was given?

We all need to pray for attunement and discernment. But I think if we look at the spirit of his message, plus what the other Masters have said, it seems fairly clear to me that they know that things might happen and that they would like us all to survive.

Some people may believe that this was all valid up until the "shelter cycle". Who of you know what the term "shelter cycle" refers to in our organization? (Around 1988 to 1990.)

Well, the shelter cycle didn't really change anything. Even afterwards, the Masters have continued to talk about preparedness. For example, ...

[Slide 7 & 8]

Padma Sambhava on June 30, 1996 (long after the shelter cycle): "I am here in the earth to see this community, other spiritual communities of the light and all lightbearers of the planet be able to survive whatever may be coming on the agenda of Elohim and the agenda of the peoples of the world who have set up for themselves a horrendous karma in abortion, a horrendous karma of anger and all of the Martian energies that you have named. And so, beloved, I am close to this community. I wish to assure you and all who are in this Church and all who have left this Church that the building of these very strongholds - shelters, as you call them - is indeed the will of God, directed by God and directed by Saint Germain. This is a very necessary step to have taken place for this community. And it is important that it is now being completed with the systems necessary so that all is in readiness."

... "My determination when I speak to those of many nations and those of the United States is to come and awaken you.

[Slide 8]

It is true that those who see before them an impending disaster yet also enter a season of denial - when it is too late and they are willing to awaken to the dire circumstances at hand, they will not be prepared. At least your eyes are opened. At least you are prepared. At least you have been warned. It has been now well over a decade that you have established your shelters. And so I say it is the best thing you have ever done aside from publishing the teachings abroad and receiving the dictations of the ascended masters. One day you will know why it is so. But today I reinforce the mantle of the messenger and I say to all who have said, "The messenger was wrong; we wasted our money" - I, Padma Sambhava, say to you, you have not wasted your money. You have done what God has wanted you to do and that is to carry on the flame of civilization, come what may." (2003 PoW Vol. 46 No. 9)

The other reason: chelaship.

If the guru, as in Mother and the Ascended masters, asks us to do something, we may not understand why or even agree, but we trust them and we just do it! They know better than we do, or else why are we here in the first place?

[Slide 9]

Archangel Michael on July 2, 1988:

“And I say, beloved, let Keepers of the Flame who count themselves as the white fire core of this movement, and you all should, know that until you have been obedient—to the letter and the spirit [of the Law]—to Saint Germain *to be prepared*, there will not be more dispensations coming forth nor can we build upon a foundation that you have not laid.” (POW Vol. 31 No. 66 October 8, 1988)

So it comes down to a matter of obedience. And here is an excerpt from a dictation by

El Morya on August 8th, 1988: “... this Community effort that must be made, if for no other purpose than for a demonstration of solidarity under Saint Germain and Sanat Kumara that when called to prepare, the chelas of the will of God prepare and they do so and they do not expect another to do it for them.” (1988 POW Vol. 31 No. 77)

The last point is that preparedness can prevent war and cataclysm.

Some people are very reluctant to prepare to survive something negative because they believe that they are thereby attracting it. But this is not so, unless they do so in fear. In fact the opposite is true. If one country wants to attack another, it looks for its vulnerabilities. If the target country is well prepared to survive an attack, then attacking them is not going to be very effective. Therefore, preparedness is a strong deterrent.

[Slide 11]

Saint Germain February 13, 1988:

"Know this, beloved, that those who are prepared often do not need to avail themselves of their preparations. But it is the absence of preparedness that does make a nation vulnerable."
(1988 POW Vol. 31 No. 20)

El Morya, April 8, 1990: "Your very preparedness itself has forestalled certain events. Just understand this, beloved, that the human mind is unpredictable and that Soviet psychics and those who work with them at inner levels are well aware of the preparedness of the saints. (1990 POW Vol. 33 No. 13)

Survival can be a heavy subject for some people to think about, but the Masters have given us lots of tools for overcoming fear and some of the other emotions that may arise. We already have a big advantage over others in the world with our understanding of K&Reinc and our true ID as Spiritual beings. But also a lot of comfort and enlightenment from the Masters.

[Slide 12&13]

Casimir Poseidon Dec. 29, 1996:

“Therefore understand that when many who are of the light hold the balance for an area ... your very

bodies of light, your causal bodies themselves, will be a major stabilizing factor. Remember this, beloved, for cataclysm in the world in its totality or in segments of areas is not always necessary and in many instances can be easily mitigated because you are at peace in yourself and you can send forth light rays.

.... It is well to be prepared. ... Call for your mighty I AM Presence to descend over you, especially in moments of severe crisis, such as earth changes and lesser manifestations. When you do this, beloved, God will answer. And if you have been a decent chela, an honourable chela, a loving chela, you will feel your I AM Presence around you. If there are things to be endured and burdens to bear, call upon the mighty I AM Presence, and that mighty I AM Presence will let that manifestation drop around you. Our God has not left you comfortless, our God has brought to you the Holy Spirit. Think of this, beloved: if God has taken you thus far, will he not take you all the way?

[Slide 13]

... But right now, firmly in the earth, *defend peace* and do not accept cataclysm, ...

... *All things are yet in flux*, no matter how bad you think is the astrology or how bad [are the] burdens [that] shall come upon this people. You who have walked the path of light will know an extraordinary protection.

... When you are right in all of these things and joyously one with your God, *fear not*

... it is the Father's good pleasure to give you the kingdom.

... And lo and behold, the earth is at peace where you are and perhaps in wider rings from where you are. Not all people will be at the right place in the right time, but you shall be if you commune with Saint Germain daily." (2002 POW Vol. 45 No. 27)

[No slide]

Lanello and K-17:

"Be prepared for cataclysm, but do not expect it lest by your very attention you cause it to come to pass. Be prepared for foreign invasion and foreign take-over, but do not expect it lest by your attention you cause it to come to pass."

(They also gave some practical advise, including:

".... The securing of camping equipment, a backpack including food rations, sleeping bag and lightweight tent, books on survival and the knowledge of how to survive in the wilderness could save your life should you be required to flee from your home at a moment's notice. "Therefore be ye also ready: for in such an hour as ye think not the Son of man cometh."

This report ends with:

"... I AM the guardian of your safety twenty-four hours a day by the power of the All-Seeing Eye of God, and my legions shall emerge from the hills to secure you in the hour of triumph."

("A Report On the Earth" POW Vol. 16 No. 21, May 27, 1973)

So again, our survival needs a balance between spirituality and practicality.

[This is demonstrated by ...

El Morya on June 23, 1985, P28/30 '85: "Blessed ones, the only way you can survive in this earth or in the next, in any world whatsoever, is by the concentration of the God flame."

And then in the same breath, he goes on to say:

"Can you not see in the history of the earth or the development of technology or the proliferation of nuclear weapons by irresponsible nations what may lie ahead as a sudden act, instigated by fallen ones who have found no other means to stop the golden age now dawning through the Teachings of the Great White Brotherhood? Thus, beloved, we encourage you truly to pursue the path of the holy ones

of God *and* to be most practical in every way in securing this place financially, in securing your families, your health, your land, your industry, and in securing the protection of the Messenger, her image, and the Teaching sent forth.”

Saint Germain on October 8, 1989: “Blessed ones, we have cried [out to the nations] and we have been prophets [crying] in the wilderness. And so we retire to the wilderness with John the Baptist! We retire with Isaiah and Jeremiah and Elijah! We retire to the Place Prepared and there we are determined to survive with our bands. And we are determined to come forth again and we are determined to cover the world with this Teaching because we shall be here. Blessed ones, whatever the case may be, our determination is your preparedness and we are here to help you. Therefore call to us and determine that nothing shall any longer stand in your way to declare your victory and to declare in the face of Death and Hell itself that you will not surrender one drop of blood or one inch to the hordes of Death who would like to take you from embodiment!”
